

Investing in Alexandria's Clean Water Future

Public Hearing on Proposed Budget and Rate Adjustment

Alexandria Renew Enterprises (AlexRenew) is hosting a public hearing on May 20, 2023, for its proposed Fiscal Year 2024 Budget and third sewer rate adjustment to help fund its mandated \$615 million RiverRenew program.

The average monthly residential bill is proposed to increase by approximately \$2.70 based on the consumption of 4,000 gallons of water per month and represents:

- A 5.4% adjustment beginning July 1, 2023
- A 5.1% adjustment beginning July 1, 2024

The public hearing will be held at 9 a.m. in the sixth-floor conference room at AlexRenew's Environmental Center, located at 1800 Limerick Street, Alexandria, VA. Visit [AlexRenew.com](https://www.AlexRenew.com) for more information.

What is RiverRenew?

The \$615 million RiverRenew program is the largest infrastructure project in Alexandria's history and will prevent millions of gallons of combined sewage from polluting the Potomac River, Hunting Creek, and Hooffs Run each year. This initiative includes the construction of a massive underground storage tunnel, which will create safer, healthier waterways for the community, wildlife, and future generations.

Hazel, the state-of-the-art tunnel boring machine, is currently constructing a 2-mile-long, 12-foot-wide tunnel to prevent combined sewage from polluting Alexandria's waterways.
